## Product Images

## Description

Square mild steel bollards in mild steel tube. The bollards can be used to protect buildings, shutter doors etc. from accidental/deliberate vehicle impact. Ragged bollards are manufactured with ground fixing spikes to facilitate firm ground anchorage. Tubular bollards have a slightly domed welded steel cap. Bollard supplied galvanised as standard, colour coated finishes are available to order.

### Specification

- Galvanised finish is standard
- Two sizes 100mm x 100mm or 150mm x 150mm
- Ragged ends as standard
- 1400mm overall length as standard
- Wall thickness 3.6

### Delivery Details

Typical delivery time: 5-7 working days
