Description

High Impact Bollards have a forgiving nature. Their inherent flexibility and impact absorption properties not only provide protection for what the bollard is installed to protect but also for the vehicle hitting it, reducing or removing the cost of damage repair bills. High Impact Bollards are the high tech, low cost solution. Due to their strength and high visibility they are also perfect for use on loading bays, at entrance and exit points and to signify designated road crossing points.

Features

- Built-in impact absorption mechanism
- Bollard suitable for internal or external usage
- Bollard suitable for traffic segregation, access prevention and edge protection of entry and exit points
- Strong, durable and flexible
- Aesthetically pleasing
- Highly visible
- Supplied with post floor fixings
- Little or no maintenance
- Simple to repair
- Reusable
- Competitively priced
- Standard 200mm OD bollard available in heights of 400mm or 1200mm
- Heavy Duty 225mm OD version available with additional rotational outer sleeve

Specification

- Three separate heights, 400mm, 750mm & 1200mm each with a 200mm diameter
- Heavy Duty Option Available in 1200mm height 225mm diameter with additional rotational outer sleeve

Delivery time

Typical delivery time: 5-7 working days
