*Base price, not including any custom options.

Product Images

Description

The flexible bollard which can bend down to 90 degrees without normally being damaged. It will in time return to its original position. Low speed impacts will cause virtually no damage to these bollards, therefore considerable replacement costs are avoided.

Specification

- Extremely robust, durable
- Maintenance free.
- Made from re-cycled granulated rubber.
- Flexible with no sharp edges, making them safe for pedestrians, cyclists and drivers.
- 200kg force needed to bend to 45 degrees
- Finish: Black
- Height above ground 1000mm, below ground 340mm
- Diameter 140mm
- Steel socket 780mm long x 160mm overall diameter
- Weight 25kg
- Comes with installation instructions

Installation

Excavate a hole 780mm deep, 300mm diameter, insert steel tube, pack sand to required depth then place bollard in hole and pack sand around to secure it. Ask us about full installation.

Delivery

Typical delivery time: 10 - 15 working days
