Description

Terrafirma impact retarding flexible bollards are the next step in bollard innovation. A highly durable and resilient material comes coloured and will never require painting.

Terrafirma bollards are designed to flex in a given loading situation (vehicle impact) at which point the bollard will fold through 90 degrees. Once the load is removed the bollard will bounce back to its upright position.

Specification

- Bollards are supplied black as standard.
- The bollard is completely ridged in the upright position and requires no steel or other reinforcement.
- Total Height 1080mm
- Diameter 150mm
- Wall thickness 15mm
- 9 Kgs
