## Description

---

Our Four Sided Smoking Shelter is a great option to protect smokers and other users from adverse weather. This shelter can be freestanding or back wall mounted and has adjustable feet. The smoking shelter is lightweight and easily assembled – we deliver it flat-packed and with assembly instructions. It can be installed on concrete, tarmac, paving slabs or block surfaces. All of this gives you greater freedom regarding location and installation.

The Four-Sided Smoking Shelter complies with the Smoking Ban legislation Parliament Act 3368. It also has partial height side screens for better ventilation when smoking inside.

This smoking shelter is also very versatile and comes with a few options for add-ons, such as finish, seating, lighting or ashtrays. We design our add-ons to make the shelter more convenient for users. The addition of lights can make it safer to use at lower visibility settings, whilst the ashtrays and benches will make it more comfortable for smokers and keep your premises clean.

Be sure also to check out our other popular shelters, such as [bike shelters](#) and [bus shelters](#).

## Options

The Four Sided Smoking Shelter comes with several options for sizes and add-ons. In terms of size, you can select from 3-5 people to 16-18 people-sized shelters. Please see the table below for further information on each size's height, length and depth.

You can choose your shelter's finish. It can come without any, so you apply a finish of your choice; it can be galvanised, powder coated in any RAL colour or galvanised and powder coated.

You can also opt to have your smoking shelter installed in two different ways. You can have it wall-mounted, without the rear panel, or freestanding with all four walls.

We offer to further install ashtrays, with two options – wall-mounted or floor-standing ashtrays. Seating is also available, and you can choose to have up to 4 benches installed in your smoking shelter. We also recommend installing a light which is another add-on you can select.

## Specification:

- 50mm x 50mm frame
- Delivered flat-packed with assembly instructions
- Black, blue or green standard, other RAL specified colours on application
- Available in 7 sizes (see table below)
