Description

Speed ramps are a highly effective means of controlling traffic speeds, the modular system is formed from black and bright yellow segments made from heavy duty recycled PVC or Rubber. Each segment includes white reflectors which provide excellent night and bad weather visibility. Both ends and inners are available in black and yellow, and all segments are sold separately to accomodate any road width.

Specification

- Made from heavy duty recycled PVC.
- Each segment includes white reflectors which provide excellent night and bad weather visibility.
- Both ends and inners are available in black and yellow.
