Description

This attractive and practical fixed bollard has a high strength galvanized steel core and consists of a rugged, self coloured casing sleeve, made from medium density polyethylene MDPE. If the sleeve is damaged it can be easily replaced without any of the associated costly ground works.

Specification

- Height above ground - 1000/1200mm (depending on installation requirements)
- Below ground - 670/470mm (depending on installation requirements)
- Max width - 100mm
- Weight - 12kg

Sleeve:

- Sleeve has a durable textured finish and is UV stable and weather resistant.
- Standard colour black, other colours to order.
- Self adhesive bands available extra.
- MDPE is an easily re-cyclable material.
- Overall diameter of sleeve is 110mm.
- Includes 3x 25mm bands.
- Sleeves are concreted in to the ground.

Core:

- Steel core is 1500mm long overall as standard.
- Either 470mm or 670mm below ground depending on installation requirements.
- 90mm diameter.
- 3mm wall thickness.
- Galvanised finish.
- These bollards can be filled with concrete on site for extra strength.

The unique design allows the option of having the bollards either 1000mm or 1200mm above ground.

Delivery

Typical 10 -15 working days
