## Product Images

## Description

---

**A breakthrough in cast polyurethane Bollard technology has led to the launch of the innovative Impact-flex range of flexible bollards. Manufactured in 'Terrathane' which is a fully pigmented, self finished, high impact resistant, zero maintenance black polyurethane, these flexible bollards are used primarily in areas which frequently get knocked by vehicles at low speed – reducing impact damage to the vehicle and removing the need for bollard replacement.**

### Specification:

- 187mm Dia x 1000mm above ground height
- Weigh only 13.5kg
- Manchester Style Bollard Shape
- Bollard will fold 90 degrees
- Bounce back design once load is removed
- Retains strength after countless impacts, making this highly durable
- Reflective Tape included as standard
- Various colours available for different applications
- [Download Instructions](#)

### Delivery

**Typical delivery time:** 10 -15 working days
