## Product Images

## Description

---

Suitable for pedestrianisation schemes, traffic calming, highways and pavements, estates, car parks, pubs, hotels, leisure, industry, commerce, public and private sectors. These are fixed bollards with ground fixing spikes for casting in to the ground; they are also available in a removable version with a galvanised ground socket and pin for padlock fixing (padlocks available separately). Flap closes flush with ground when the bollard is removed.

### Specification

- 100% recycled mixed consumer plastic waste
- Durable, extremely long life time
- High impact strength, but flexible and malleable
- Solid construction
- Not brittle and does not rot
- Impervious to rain and frost
- No rust, no corrosion
- Chemically inert, difficult to combust
- Vandal & graffiti resistant
- U.V. stable. Can again be recycled
- Available fixed for casting in or removable with ground socket
- Height above ground - 950mm
- Depth below ground - 400mm
- Diameter - 210mm
- Weight - 29 kg

### Delivery

- Typically 10 - 15 working days
